Warrens Cranberry Festival announces cancellation to Festival due to Coronavirus (COVID-19)

The Warrens Cranberry Festival Board of Directors based on an abundance of caution will cancel the 2020 Warrens Cranberry Festival. While we are disappointed to share this news, protecting our small community and many faithful visitors that come every year to celebrate with us is of extreme importance to us all.

In canceling the festival, several factors were considered. This conclusion is made after much careful deliberation. With the COVID-19 pandemic continuing to evolve unpredictably we feel strongly that the most cautious course is to allow more time for the situation to stabilize. We thank everyone for their patience as we have considered all the matters necessary to making this difficult decision.

The Warrens Cranberry Festival has been a tradition for 47 years. The Festival usually hosts over 45,000 people daily with over 1300 vendors from across the country. The festival features authentic food, vendors, cranberry marsh tours, a parade and so much more. This is the first time the festival has been cancelled. We are looking forward to planning the 2021 festival, September 24-26, 2021.

The purpose of the Warrens Cranberry Festival shall be to promote the common good and general welfare of the community of Warrens, including holding an annual community festival and raising funds to be used exclusively for civic betterments and social improvements in the Warrens community.
